

As geographers we will...

- Explore the topic of Our Wonderful World
- Research and discover the seven wonders of the world.

As scientists we will...

- Categorise groups of animals such as fish, amphibians, reptiles, birds and mammals.

As artists we will...

- Investigate maps as a stimulus for drawing.
- Develop our drawings by transforming them into 3D abstract maps.

As computer programmers we will...

- Explain that an algorithm is a set of instructions.
- Describe the algorithms the children have created.
- Know that the computer needs to follow clear instructions.

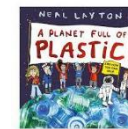

As Active Learners we will...

- Extend our agility, balance and coordination, individually and with others through Gymnastics (Lead by our Sports Coach)
- Become a team when participating in invasion games

As readers we will...

- Read our featured books Rocket Says Clean Up written by Nathan Byron and A Planet Full of Plastic published by Neal Layton.
- Infer, predict and sequence these books.

As Religion Researchers we will...

Answer our BIG question:

How important is it to Christians that Jesus came back to life after his crucifixion?

As mathematicians in Year 1 we will...

- Count, estimate, order and understand numbers to 20.
- Recall one less and one more than number facts within 20.

As mathematicians in Year 2 we will...

- Count money focusing on the pound and pence.
- Compare amounts of money and collect change

As writers we will...

- Discuss the properties to writing a persuasion non-chronological reports
- Understand that the purpose of this report is to persuade and inform.
